

CUTTING-EDGE TECHNOLOGY

CASE MANAGEMENT
ON THE CLOUD

EFFECTIVE
MOBILITY

DYNAMIC PROCESS
MANAGEMENT

PERSONALIZED
REPORTING TOOLS

KEY FEATURES

- Unified Case Intake
- Role and User Management
- Reduce Time and Complexity
- Ease of Implementation
- Integrated Document Conversion
- Modular Architecture
- Reduced Training Curves
- Integrate with Data Exchange Partners
- Low Cost & Effort

Arise has been built to alleviate current constraints that plague the industry - Complexity, Localization and Automation.

Next Generation Child Care Management System

CITI's Early Development Management System - **Arise**, is a case management system engineered to facilitate and augment Child Care subsidy requirements at the State and County level.

CORE DOMAIN EXPERTISE

Arise leverages the vast domain experience of active Child Care Case Managers and Providers. Built on the **Empower** platform, Arise bears the hallmark of excellence and technology expertise. Arise automates key workflows, reduces case workloads and improves overall case worker efficiencies.

360° View of Family and Provider Services

WHY ARISE

User Friendly and Intuitive

Guarantees an overall improvement in the agency's quality of care and reduces critical training time.

Online/Off-line Scenarios

Allows Case Worker and Childcare specialists with continuity of operations without dependency on network uptimes.

Case Management on the Cloud

Achieve better results at lesser overall costs.

Integration Services

Interoperability and synergy across all inter and intra governmental / enterprise-based systems.

Business Process Excellence

Adherence to best practices by re-engineering core HHS business processes to deliver benefits across the value chain.

Effective Mobility

Mobile enabled inspection module to conduct inspections and log observations and results remotely.

Highly Configurable Rules Engine

Automate and execute existing business policies and introduce new ones to effectively govern your enterprise.

Faster and Efficient

Dynamic Process Management.

Personalized Reporting Tools

Improves efficiency, accountability, and accuracy for effective decision making.
